Dear Kelly and the ECO team

Grappenhall Heys Primary – ECO team - Crisp Packet Collection

I am writing to thank you and your fabulous ECO team for the project that you have undertaken to collect waste crisp packets over the past weeks which has contributed to the Meals & More recycling initiative set up with Sysco Brakes UK and PepsiCo.

It was a fantastic effort by your pupils and their families to collect so many and arrange for them to be taken to the Brakes Warrington Depot, it is very much appreciated.

By doing this you not only are you helping the environment but have also helped Meals & More raise funds to support children across the UK, who live in poverty and have very little to look forward during the school holidays.

The holiday clubs managed by national charities provide a range of learning and fun activity and a lunch which many look forward to and we know the children and their parents really do welcome.

Meals & More this year helped provide over 110,000 meals at 200 clubs in all regions of the UK, from Scotland down to the south coast, including clubs in Manchester and Wigan.

It was great to hear of what you have done and receive a lovely picture which with your permission we would like to promote Meals & More.

Again, thank you for all your help and support and keep up the great work.

Kind Regards

Peter McGrath
